

GI Cladding Sheets

Product information sheet

**EIC-14 · Cladding & Vapour Protection**

GI Cladding Sheets

Galvanised steel cladding for industrial insulation protection.

Material: Galvanised iron (GI)

Primary use: Industrial insulation protection

Product overview

GI cladding sheets are galvanised steel jackets fitted over industrial insulation on pipes, boilers, tanks and equipment. They provide robust mechanical and weather protection in industrial environments. Sheets are formed to the surface, fixed with screws or bands, and sealed at joints.

Applications

- Industrial insulation protection
- Boiler and tank cladding
- Hot service pipe jacketing

Key features

- Galvanised steel for mechanical protection
- Suited to industrial environments
- Formed to pipes, tanks and equipment
- Fixed with screws or bands
