

Insulation Adhesive

Product information sheet

EIC-15 · Installation & Accessories

Insulation Adhesive

Adhesive for fixing insulation materials to surfaces and bonding seams.

Material: Adhesive

Primary use: Fixing insulation materials

Product overview

Insulation adhesive is used to fix insulation materials to pipes, ducts and equipment and to bond seams and joints on rubber and foam insulation. Selecting the correct adhesive for the insulation material and surface helps the installation stay in place and keeps joints closed.

Applications

- Fixing insulation materials
- Bonding rubber and foam seams
- Fixing sheets to ducts and equipment

Key features

- Bonds insulation to metal surfaces
- Seals seams on rubber and foam insulation
- Supplied in tins for site use
- Choose to suit the insulation material
