

PUF Slabs/Sheets

Product information sheet

**EIC-02 · Thermal Insulation**

PUF Slabs/Sheets

Rigid polyurethane foam slabs and sheets for equipment, tanks and duct insulation.

Material: Polyurethane foam (PUF)

Primary use: Equipment, tanks and duct insulation

Product overview

PUF slabs and sheets are flat rigid polyurethane foam boards that can be cut and fitted to flat or large-radius surfaces. They are used to insulate equipment, tanks, vessels and ducting where a rigid closed-cell insulation is required. Sheets are fixed with adhesive or pins and finished with facing, tape and cladding as the application requires.

Applications

- Equipment insulation
- Tank insulation
- Duct insulation

Key features

- Flat rigid boards, easy to cut on site
- Closed-cell polyurethane foam
- Suits flat and large-radius surfaces
- Can be fixed with adhesive or insulation pins
