

Rockwool Slabs

Product information sheet

**EIC-06 · Thermal Insulation**

Rockwool Slabs

Mineral wool slabs for boilers, tanks, ducts and equipment.

Material: Rockwool (mineral wool)

Primary use: Boilers, tanks, ducts and equipment

Product overview

Rockwool slabs are semi-rigid mineral wool boards for insulating flat and curved surfaces on boilers, tanks, ducts and industrial equipment. They are fixed with insulation pins or wire mesh and covered with cladding. Mineral wool is a common choice where the insulated surface runs hot.

Applications

- Boiler insulation
- Tank insulation
- Duct insulation
- Equipment insulation

Key features

- Semi-rigid mineral wool boards
- Suits boilers, tanks and equipment
- Fixed with pins or mesh
- Compatible with metal cladding
