Product information sheet

EIC-10 · Thermal Insulation

XLPE Insulation

Closed-cell cross-linked polyethylene insulation for HVAC and plumbing pipes.

Material: Cross-linked polyethylene (XLPE)

Primary use: HVAC and plumbing pipes

Product overview

XLPE insulation is a closed-cell cross-linked polyethylene foam supplied as tubes, sheets and rolls. It is used on HVAC and plumbing pipes where a light, flexible closed-cell insulation is required. XLPE can be supplied plain or with a foil facing, and joints are sealed with tape or adhesive.

Applications

- HVAC pipes
- Plumbing pipes
- Chilled water lines

Key features

- Light closed-cell polyethylene foam
- Available as tubes, sheets and rolls
- Plain or foil-faced
- Simple to cut and seal on site
